Kathy/Pam – If you have time, have a look at this segment from Al Jazeera. Also –Avis says that Mr. Hooser may focus on his push to ban glyphosate during our meeting.

Mary,

In case you wanted to see the Al Jazeera video, here's the link.

Subject: Hooser meeting

Hi, Mary,

I talked to Ann today and there does not appear to be anything major happening on Kauai right now. Mr. Hooser is making a big push to ban glyphosate in the State because of the designation by IARC that it is a possible carcinogen. She said that he may bring someone with him and they may surreptitiously try to tape the meeting on their phone. That's what happened at Syngenta's shareholder's meeting in Switzerland. I don't know if you even care whether he tapes the conversation or not.

Everyone here is in a flap about the Al Jazeera video interviews about pesticides/GMOs. Someone forwarded me a link to it but I was under some time constraints on UIPA requests and didn't bother to watch it

Regards,

Avis
